CAREER OBJECTIVE

Seeking an internship opportunity in software development, backend development, full-stack development, or AI-related technologies where I can contribute to projects, strengthen my technical skills, and gain practical industry experience.

PROFESSIONAL SUMMARY

B.Tech Information Technology student with working knowledge of Python, Java, web development fundamentals, and AI-assisted development. Interested in software development, backend technologies, and artificial intelligence. Experienced in collaborative hackathon projects, including RailSense AI, an AI-powered train ETA forecasting solution, and PrepSync AI, an AI-powered productivity platform. Eager to apply technical skills, learn industry practices, and contribute to real-world software projects through an internship.

EDUCATION

Gurunanak Institution of Technical Campus *Expected Graduation: 2028*
Bachelor of Technology (B.Tech), Information Technology — Third Year | CGPA: 8.0

Narayana Junior College *2024*
Intermediate — 88.4%

Sri Chaitanya School *2022*
Secondary School — 70%

TECHNICAL SKILLS

Programming Languages: Python, Java

Web Technologies: HTML, CSS, JavaScript (Basics)

Backend Development: Backend fundamentals, PostgreSQL, FastAPI (REST APIs)

AI & Productivity: Prompt Engineering, effective use of AI models

Tools & Platforms: Visual Studio Code, GitHub

PROJECTS

RailSense AI — AI-Powered Train ETA Forecasting *Smart India Hackathon (SIH26028)*
Role: Project Coordinator & Backend Developer

- Developing an AI-powered solution for forecasting train arrival times.
- Building a web-based dashboard to present train ETA information and improve travel visibility.
- Responsible for product requirements, project coordination, documentation, and backend development.
- Contributing to PostgreSQL database design and FastAPI-based REST API development.

PrepSync AI — AI-Powered Productivity Platform

- Conceptualized an AI-powered productivity platform designed to automate meeting scheduling and improve collaboration.
- Designed features for generating meeting notes from previous discussions.
- Focused on organizing important information and improving workflow management.

HACKATHON EXPERIENCE & LEADERSHIP

- Participated in a 24-hour hackathon focused on building a product within a limited time.
- Took on leadership responsibilities in hackathon projects, contributing to team coordination and project execution.

COURSES & LEARNING

- Prompt Engineering Course — Completed.

- Currently developing skills in Python, Java, backend development, and AI-assisted software development.
